

ADVANCED CERTIFICATION PATH

Advanced SAFe® Practice Consultant

Build skills that facilitate sustained transformation with the Advanced SAFe® Practice Consultant (ASPC) certification path. This renewable certification supports experienced SPCs in developing sustainable transformation strategies, including educating leadership, excelling in Lean Portfolio Management (LPM) implementations, and cultivating a coaching culture that drives relentless improvement. Throughout the learning path, participants will

engage in blended learning that combines self-paced, facilitated, and peer-to-peer learning to progressively build and validate their skills. The certification path modules culminate with the Learning Lab, a facilitated session that offers learners real-world scenarios that challenge participants' mastery of key concepts. Learners are awarded the Advanced SPC certification upon completing all modules and passing the certification exam.

Advanced SPC Certification Path

Advanced SPC certification path

1 Self-paced e-learning module

A one-hour self-paced e-learning on writing effective OKRs to drive alignment, prioritization, and accountability across teams.

4 Facilitated modules

Facilitated half-day sessions focusing on topics including educating and supporting leadership, and cultivating a culture of relentless improvement.

Learning Lab

A small group session allowing learners to complete case-study-based scenarios to consolidate what they have learned through real-world application.

Advanced SAFe® Practice Consultant
