## What Your SAFe® Lean Portfolio Manager Certification Demonstrates

SAFe certification demonstrates your proven knowledge of Lean-Agile methodologies and Agile-specific skills in critical competencies. When this demonstrated knowledge is tested through our Subject Matter Expert (SME)-developed exam, candidates will:

- Assist in shifting the enterprise to lean portfolio management
- Establish a portfolio strategy and vision for an enterprise
- Innovate through the SAFe® Lean Startup Cycle
- Manage flow with portfolio kanban
- Apply agile portfolio operations with value stream coordination
- Measure lean portfolio performance through continuous compliance

## Certification and Membership Benefits

### Certification Overview

- **Audience:** Leaders and decision-makers responsible for aligning enterprise strategy and execution
- **Prerequisites:** None, but familiarity with SAFe and Agile principles is recommended or attendance of Leading SAFe® or SAFe® for Teams
- **Length:** 2 days

My experience of working in SAFe has been great as it brings alignment and transparency while working with complex products. Teams stay intact and motivated as they are connected to strategy directly.

— Ravikiran Paga, Airbus
