The Professional Development Value of SAFe® Practice Consultant Certification

The Implementing SAFe® course and certification exam offer robust content, hands-on learning opportunities, and verified learning objectives. Built on decades of proven knowledge and concepts, SAFe certifications follow industry-leading learning and exam standards to ensure learner competency, certification validity and reliability, and learner-focused knowledge retention. The outcome is an annually-renewed certification badge, on-the-job useable skill base, and strategic understanding that enhances role functions and deepens Agile capabilities and practice.

SAFe® Practice Consultant (SPC) Certification Benefits

<ul style="list-style-type: none">• Coach a SAFe transformation• Launch Agile Release Trains (ARTs)• Organize around value streams• Build solutions with Agile Product Delivery• Enhance a Lean portfolio by launching ARTs and value streams• Understand each role within a SAFe implementation• Accelerate business agility through flow, a continuous learning culture, and establishing organizational agility	<ul style="list-style-type: none">• Perpetual access to course workbook and SAFe Studio™ for additional preparation• An unlimited practice test with question-level feedback and coaching report that acts as a simulation and study tool• A dedicated, experienced support team for service requests• A timed, multiple-choice, 60-question exam with a coaching report	<ul style="list-style-type: none">• Industry-leading SAFe® Practice Consultant certification, renewed yearly• Digital badge with social media share capability to grow your network• Course certificate of completion• PMI PDUs, Scrum Alliance SEUs

What a SAFe® Practice Consultant Certification Demonstrates

SAFe certification demonstrates your proven knowledge of Lean-Agile methodologies and role-specific skills in critical competencies. When this demonstrated knowledge is tested through our Subject Matter Expert (SME)-developed exam, candidates will:

- Understand the roles of each person in a SAFe organization
- Plan and guide a SAFe transformation
- Identify value streams, launch ARTs, optimize flow, and apply Objectives and Key Results to Strategic Themes
- Practice the principles of Agile product management and product delivery
